# AUTHOR INDEX

This section contains the names of contributors, reviewers, and the authors of books, &c., reviewed or noticed. O signifies an Original Contribution, R a Review, and N a Notice. The titles of original contributions are in Roman type; the titles of reviews and notices are in italics.

*Foreign titles.* Under the name of the *original author* foreign titles are given in the original language. Under the name of the *reviewer* they are given in the original language followed by the English translation.

Ackers, C. P. *Practical British forestry.* Review by W. L. Taylor . R xii. 45
Adolph, L. *Der Grossanbau der Douglasie im Gadower Forst.* (*The cultivation of Douglas fir in the Forest of Gadow.*) Review by J. M. Murray. R xi. 139
Ainsworth, G. C. *The Plant diseases of Great Britain. A bibliography* . N xi. 78
Allen, S. W. *An introduction to American forestry.* Review by W. L. Taylor R xiii. 85
Armstrong, F. H., *see* Rendle, F. H., *et al.*
Ayres, Q. C. *Soil erosion and its control* . . . . . N xi. 78

Baldwin, Henry I. *Forest tree seed.* Review by H. M. Steven. . . R xvi. 59
Barkas, W. W. *Recent work on the moisture in wood in relation to its strength* N xii. 151
— *Swelling stresses in gels* . . . . . N xix. 135
Bateson, R. G. *Timber drying and the behaviour of seasoned timber in use.* Review by B. J. Rendle. . . . . R xii. 48
Bavendamm, W. *Erkennen, Nachweis, und Kultur der holzverfarbenden und holzersetzenden Pilze.* Review by W. P. K. Findlay . . . R xi. 72
Beak, P. G. *Het Geslacht* Populus *in Verband met zijn Beteekenis voor de Houtteelt.* (*The genus* Populus *and its significance in Silviculture.*) By G. Houtzagers . . . . . R xi. 73
Best, F. C., and Ross, J. M. Group regeneration in Amenity woodlands at Alice Holt Forest . . . . . O xx. 21
Björkman, Erik. *Über die Bedingungen der Mykorrhizabildung bei Kiefer und Fichte.* Review by G. Levisohn . . . . . R xx. 91
Boerker, H. D. *Behold our Green Mansions.* . . . . . N xix. 134
Boulton, E. H. B., and Jay, B. A. *British timbers: their properties, uses, and identification, with notes on the growth and cultivation of trees* . . N xx. 103
Bourne, Ray. Neglect of natural regeneration . . . . . O xix. 33
Boyce, J. S. *Forest pathology.* Review by W. R. Day . . . . R xii. 144
Brimble, L. F. *Trees in Britain, wild, ornamental and economic, with some relatives in other lands* . . . . . N xx. 102
Brown, H. P., and Panshin, A. J. *Commercial timbers of the United States: their structure, identification, properties and uses.* Review by S. H. Clarke . . . . . R xv. 88
Brown, J. M. B. *Studier över Tallskottvecklaren* (Evetria buoliana *Schiff.*). By V. von Butovitsch . . . . . R xi. 71
Brown, N. C., *see* Moon, F.
Bruce Jackson, A. *The identification of conifers.* Review by E. V. Laing . R xx. 93

Bryant, P. C. *Lumber.* Review by P. Harris . . . . . R xiii. 86
Bujakowsky, W. *Forstgartendüngung mit Nitrophoska.* Review by A. B. Stewart . . . . . R xi. 62
Burtt Davy, J. The classification of coniferae . . . . . O xi. 53
— II . . . . . O xi. 122
— *Classification of tropical woody vegetation types.* Review by H. G. Champion . . . . . R xiii. 81
Butovitsch, V. von. *Studier över Tallskottvecklaren.* (Evetria buoliana *Schiff.*) Review by J. M. B. Brown . . . . . R xi. 71

Callan, E. McC. 'Witches' Brooms' on the cricker-bat and other willows O xiv. 22
— *see also* Dowson. W. J.
Cann, F. R. Experiments in Great Britain with wood preservatives for the prevention of *Lyctus* attack . . . . . O xiv. 27
Cansdale, G. S., and others. *Black poplars* . . . . . N xii. 152
Cartwright, K. St. G. The variability in resistance to decay of the heart-wood of home-grown European larch, *Larix decidua* Mill. (*L. Europaea*) and its relation to position in the log . . . . O xvi. 49
— Note on the heart rot of oak trees caused by *Polyporus frondosus* Fr. . O xiv. 38
— Timber stain in Norway spruce . . . . . O xi. 124
— Variability in resistance to decay of home-grown red cedar (*Thuya plicata* D. Don) and its relation to position in the log . . . O xv. 65
— and Findlay, W. P. K. *Forest Products Research Bulletin No. 1: Dry rot in wood* . . . . . N xii. 151
Chalk, L. A. *A forestry tour in 1937* . . . . . N xiii. 97
— *Das Holz als Rohstoff.* (*Wood as a Raw Material.*) By A. Trendenburg R xiii. 161
Champion, H. G. *Classification of tropical woody vegetation types.* By J. Burtt Davy . . . . . R xiii. 81
— *Progress of forestry in India during the past twenty-five years* . . N xii. 62
— *Manual of Indian Silviculture. Part I. General silviculture.* Review by H. M. Steven . . . . . R xiii. 159
Chandler, R. F., *see* Mitchell, H. L.
Chow, K. V. A comparative study of the structure and chemical composition of tension wood and normal wood in beech (*Fagus sylvatica* L.) . . . . . O xx. 62
Chrystal, R. Neil. *A contribution to our knowledge of the injuries caused to Silver fir by plant lice.* By Dr. Héléne Francke-Grosmann . . R xii. 60
— *Insects of British woodlands.* Review by R. C. Fisher. . . . . R xi. 134
— *Beetles injurious to timber and furniture. Forest Products Research Bulletin No. 19.* . . . . . R xiv. 88
— *Further notes on the ecology and control of pine beetles in Great Britain.* By H. S. Hanson . . . . . R xiv. 50
Clarke, S. H. *Commercial timbers of the United States; their structure, identification, properties and uses.* By H. P. Brown and A. J. Panshin R xv. 88
— The distribution, structure, and properties of tension wood in beech (*Fagus sylvatica* L.) . . . . . O xi. 85
— *Recent contributions from the botany department of Leeds University.* By Priestley, J. H., and others . . . . . R xiv. 89
— Stresses and strains in growing timber . . . . . O xiii. 68

Cline, A. C., and Spurr, S. H. *Virgin upland forest of central New England.* Review by Barrington Moore . . . . . R xviii. 59
Coke, Hon. Richard. *How to make forestry pay.* Review by H. M. Steven R xii. 61
Connell, C. A. Some recent improvements in forest fire organization and fighting . . . . . O xviii. 21
Cox, H. A. *The pruning of trees and shrubs.* By W. Dallimore . . R xx. 93
Craib, I. J. *Thinning, pruning, and management studies on the main exotic conifers grown in South Africa.* Review by W. H. Guillebaud . . R xiv. 44

Dallimore, W. *Manual of cultivated trees and shrubs.* By Alfred Rehder . R xv. 87
— The more recently introduced conifers and their value for planting in the British Isles . . . . . O xi. 1
— *The Pruning of trees and shrubs.* Review by H. A. Cox . . . R xx. 93
Davey, Reginald. *Marketing timber and other woodland products.* Review by W. M. McNeill . . . . . R xiii. 160
— *Measurement of trees.* Reviews by J. Macdonald . . . . . R xvi. 56
— Number of sample trees required for determining volumes of woods with various degrees of accuracy . . . . . O xvi. 52
— *Timber in war-time* . . . . . N xiv. 57
Day, W. R. A discussion of causes of dying-back of Corsican Pine, with special reference to frost injury . . . . . O xix. 4
— The dying of larch . . . . . O xi. 109
— On the effect of changes in elevation, aspect, slope, and depth of free-rooting material on the growth of European larch, Japanese larch, Sitka spruce and Scots pine in Mynnydd Ddu Forest . . . O xx. 7
— *Forest Pathology.* By J. S. Boyce . . . . . R xii. 144
— On the importance for forestry of the study of systematic mycology O xviii. 49
— Root-rot of sweet chestnut and beech caused by species of *Phytophthora* Pt. I . . . . . O xii. 101
Pt. II. Inoculation experiments and methods of control . . . O xiii. 46
— and Peace, T. R. The influence of certain accessory factors on frost injury to forest trees. II. Temperature conditions before freezing . O xi. 13
— III. Time factors . . . . . O xi. 17
— IV. Air and soil conditions . . . . . O xi. 92
— V. Discussion . . . . . O xi. 101
— — *Spring frosts.* Review by T. Thomson . . . . . R xi. 141
Department of Forestry, University of Oxford. *Forest bibliography to 31st Dec. 1933—Part II* . . . . . N xi. 146
*Part III* . . . . . N xii. 152
Desch, H. E. *Timber. Its structure and properties.* Review by B. J. Rendle R xii. 47
D'Ombrain, A. W. *A gallery of gum trees* . . . . . N xiii. 97
Dowson, W. J., and Callan, E. McC. Watermark disease in the white willow . . . . . O xi. 104

Economist correspondent in Oregon. *American Survey, Douglas fir* . N xx. 99
Edlin, H. L. *British woodland trees.* Review by T. R. Peace. . . R xviii. 58
— Hourly variations in the incidence of forest fires . . . . O xx. 26
Eggeling, W. J., and Harris, C. M. *Forest trees and timbers of the British Empire. IV. Fifteen Uganda timbers* . . . . . N xiii. 167

Empire Forestry Association. *Empire Forestry Handbook* . . . N xx. 95
— *Empire Forestry Review. No. 1. 1946* . . . . . N xx. 95

Fabricius, L. *Bodendeckung mit Pflanzenstoffen.* (*Use of vegetable refuse for smothering the natural herbage in checked plantations.*) Review by W. H. Guillebaud . . . . . R xii. 53
Fenton, E. Wyllie. The oak in Scotland, and two semi-natural oak woods in the south-east of Scotland . . . . . O xv. 76
— Some observations on heart rot in conifers from an ecological point of view . . . . . O xvii. 55
Finn, R. F., *see* Mitchell, H. L., *et al.*
Findlay, W. P. K. The effect of sap-stain on the properties of timber. II. Effect of sap-stain on the decay-resistance of pine sapwood . . O xiii. 59
— *Erkennen, Nachweis, und Kultur der holzverfarbenden und holzersetzenden Pilze.* By W. Bavendamm . . . . . R xi. 72
— *see also* Cartwright, K. St. G.
— *see also* Pettifor, C. B.
— and Pettifor, C. B. The effect of sap-stain on the properties of timber. I. The effects of sap-stain on the strength of Scots pine sapwood . O xi. 40
— — The effect of sap-stain on the properties of timber. III. Effect of sap-stain on the modulus of elasticity of Scots pine sapwood . . O xiii. 146
Fisher, R. C. *Insects of British woodlands.* By R. Neil Chrystal . . R xi. 134
— *Principles of forest entomology.* By S. A. Graham . . . . R xiii. 162
Flous, F. *Recent work on the taxonomy of conifers:* (1) *Revision du Genre Keteleeria.* (2) *Revision du Genre Pseudotsuga.* (3) *Revision du Genre Tsuga.* Review by M. Y. Orr . . . . . R xi. 64
Foggie, A. On the determination of quality class by 'Top' height instead Mean height for conifers in Great Britain . . . . . O xviii. 28

# SUBJECT INDEX

This section contains the titles of original contributions and books, &c., reviewed or noticed.

The titles of original contributions are in Roman type; the titles of reviews and notices are in italics but are not otherwise differentiated.

*Foreign titles* are indexed as a rule under their English equivalents.

Acland, Rt. Hon. Sir Francis D., Bart. (Obituary) . . . . . xiii. 157
Afforestation of difficult peat and upland-heath soils . . . . . xii. 80
Afforestation and forestry in Great Britain, Some ecological aspects of . xvi. 1
Afforestation in the Hill Country. Ecological aspects of.—Criteria in the choice of species . . . . . xii. 93
*Africa, Science in* . . . . . xiii. 84
*African survey, An* . . . . . xiii. 84
